

Plumbing Apprenticeship

Course / qualification / unit code and title

CPC32413 Certificate III in Plumbing

Course overview

Course overview

This qualification is designed for plumbing apprentices who are employed full time as an apprentice and have a formal contract of training. The qualification will provide learners with the skills and knowledge required to seek registration with the Victorian Building Authority as a registered plumber.

Master Plumbers offers learners two training plan options in this qualification to meet employer requirements.

- Mechanical option – five plumbing streams including water, sanitary, gas, roofing and mechanical services
- Drainage option – five plumbing streams including water, sanitary, gas, roofing and drainage

Prerequisites / entry requirements

There are no specified prerequisites or entry requirements for learners in this qualification.

However it is recommended that learners are able to demonstrate language, literacy and numeracy skills equivalent to Level 3 of the Australian Core Skills Framework (ACSF).

All new entrants to the Certificate III in Plumbing will be required to undergo a pre assessment of their language, literacy and numeracy designed to identify their level of ability against the ACSF.

It is recommended that learners hold their Construction Industry Induction card (CPCCOHS1001A Work safely in the construction industry) prior to enrolling in this qualification.

Structure and duration

Course structure

The qualification has core and elective unit of competency requirements that cover common and specialist skills for the plumbing industry in six specialist streams:

- Stream 1 Water
- Stream 2 Sanitary
- Stream 3 Drainage
- Stream 4 Mechanical Services
- Stream 5 Roofing
- Stream 6 Gas services

Units of competency from a minimum of four streams are required for award of this qualification. Stream 1 Water and Stream 2 Sanitary are mandatory for all learners.

To meet industry expectations, and better develop the skills of our apprentices, Master Plumbers delivers five plumbing streams in either the mechanical or drainage training option.

The following units of competency are required for the award of this qualification:

- Stream 1 Water (mandatory): 24 core units and 5 elective units from the water stream and
- Stream 2 Sanitary (mandatory): 6 core units and 4 elective units from the sanitary stream.
- Stream 5 Roofing: 8 core units and 4 elective units from the roofing stream
- Stream 6 Gas services: 12 core units and 5 elective units from the gas services stream

Plus either;

- Stream 3 Drainage: 9 core units and 3 elective units from the drainage stream

Or

- Stream 4 Mechanical Services: 4 core units and 11 elective units from the mechanical services stream

NB: Units of competency achieved in one stream count as credit for the same unit in the core or elective requirements for any other stream.

Course duration

- Mechanical option – 1336 nominal hours delivered over 3 years (block release training)
- Drainage option – 1087 nominal hours delivered over 3 years (block release training)

Outcome and recognition

Course outcomes

This qualification provides a trade outcome in plumbing.

Occupational titles may include:

- Plumber
- Plumber and drainer
- Plumber and gasfitter
- Gasfitter
- Roof plumber
- Mechanical services plumber.

This qualification is suitable for an Australian Apprenticeship pathway.

Apprentices who successfully complete this qualification will be required to sit the Victorian Building Authority (VBA) external examination if they wish to achieve registration for specific classes of plumbing work.

Recognition

On successful completion learners will receive the qualification CPC32413 Certificate III in Plumbing.

Learners who do not complete the full qualification will receive a Statement of Attainment for those unit/s which have been successfully completed. Learners will receive credit for these units where they form part of any other accredited course or training package qualification.

Licensing and registration information

All plumbing work in Victoria must comply with Part 12A of the Building Act 1993 and the Plumbing Regulations 2008.

Part 12A of the Act sets out the legal framework for the registration and licensing of plumbing practitioners, and regulation of plumbing work and other plumbing matters. The Regulations are derived from the Act and set out the requirements that must be complied with.

In accordance with the regulation for registration in Victoria the VBA mandate specific competencies from the Certificate III qualification as a minimum that must be achieved for a plumber to gain registration.

Delivery and assessment

Delivery arrangements

This qualification incorporates approximately 3 years off the job (RTO based) structured training and delivery. The units required to complete the qualification have been grouped into stages to reflect the skill and knowledge development of apprentice learners over that time. Each stage roughly equates to a year.

Stage 1 – Foundation skills

This stage is delivered over 9 x single week blocks of training approximately every 4 weeks.

Stage 2 – Plumbing installation skills

This stage is delivered over 7 x single week blocks (drainage stream) or 8 x single week blocks (mechanical services) of training approximately every 4 weeks.

Stage 3 – Trade level skills

This stage is delivered over 7 x single week blocks (drainage stream) or 8 x single week blocks (mechanical services) of training approximately every 4 weeks.

Training delivery methods include;

- Practical activities and learning tasks completed in the practical workshop (approximately 50% of the course)
- Face to face teacher lead classes (approximately 50% of the course)
- Self directed learning activities using learner resource text books, Australian Standards and industry reference materials

The course is delivered at the purpose built facilities at the Plumbing Industry Climate Action Centre (PICAC).

The units *CPCPCM2055A Work safely on roofs* and *HLTAID002 Provide basic emergency life support* may be delivered and assessed by CEPUTEC (RTO #4612)

Assessment arrangements

Assessment methods include;

- Completion of practical assessment installation tasks (individually or in teams) relevant to plumbing work
- Oral and/or written questioning related to underpinning knowledge
- Application of knowledge during the practical activities (e.g. task planning, developing drawings, plan reading, writing materials list)
- Tests /quizzes to check on retention and understanding
- Preparation of SWMS to ensure fundamental WHS requirements

Reasonable adjustments to our assessment methods are available for learners with specific needs on discussion with a Master Plumbers assessor.

Recognition of Prior Learning (RPL)

Recognition of Prior Learning (RPL) is available to learners in accordance with Master Plumbers' policies and guidelines.

However it must be noted that this qualification sits within a regulated licensed industry. Individuals undertaking the job tasks and skills identified within the qualification must be registered to practice legally. Recognition of prior learning may be deemed invalid if an individual was found to have been working illegally. Recognition may be possible for generic skills for unregistered individuals.

Where individuals can demonstrate plumbing skills and knowledge have been acquired under the direct supervision of a licenced or registered plumbing practitioner within Australia an RPL application would be deemed valid.

RPL in any aspect of this qualification will generally be determined by a challenge test against the unit assessment tasks.

Fees

Fees, charges and eligibility

Master Plumbers (TOID #3937) delivers the qualification CPC32413 Certificate III in Plumbing with Victorian and Commonwealth Government funding.

Learner fees for government funded courses are calculated in accordance with the State Government of Victoria's 2018 *Skills First* program. Learner fees include tuition fees and materials fees. This course also may incur an additional cost for tools.

Learners may be eligible for a government funded position in this course.

Tuition fee concessions may also be available for eligible learners.

Contact Master Plumbers on 9356 8921 for more information or to confirm your eligibility for a government funded place.

For further information, you can also visit the Victorian Skills Gateway to find out more on your eligibility to receive a Victorian Government subsidy.
