

# **BUILDING AND CONSTRUCTION INDUSTRY**

## **COVID 19 ALERT**

**10 June 2021**

The Victorian Building and Construction Industry remains OPEN because it is so vital to the state economy and we have implemented the most thorough measures available to keep workers safe – all listed in the Industry Guidelines

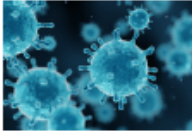

**BUT**

The threat of illness from COVID-19 and the viability of the industry is still at **RISK!**

### **THESE ARE MANDATORY**

<b>1</b>	<b>ENSURE</b> that the site's <b>WORKPLACE MAPPING</b> systems are up to date and <b>INSTALL</b> the <b>SERVICE VIC QR Code Service</b>	
<b>2</b>	<b>MANDATE</b> the wearing of masks (unless exempted or have a medical reason)	
<b>3</b>	<b>ENSURE</b> that the Density Quotient and Cleaning and Hygiene standards are in place	
<b>4</b>	<b>ENSURE</b> that anyone who has any COVID-19 symptoms or who has attended a COVID-19 public exposure site stays home and complies with Dept Health instructions	

### **THIS IS THE LATEST BEST PRACTICE ADVICE**

<b>5</b>	<b>AUDIT</b> the ventilation in Hoists, Toilets, lunch rooms and change rooms which are high risk areas	
<b>6</b>	<b>COMPLY</b> with the Industry COVID-19 <b>GUIDELINES</b>	

**These six critical actions just might be the difference between workers staying well and your site staying open or closing down.**
